

Marrakech, January 1st, 2024

In 1924, the French painter Jacques Majorelle acquired land located on the edge of the Palmeraie of Marrakech, where he built a villa and laid out a garden.

In 1947, Majorelle opened his garden to the public. In 1980, the late Pierre Bergé and Yves Saint Laurent became owners of this legendary garden and kept it open to the public.

The year 2024 therefore marks the 100th anniversary of this world-renowned garden. The Jardin Majorelle and the Fondation Jardin Majorelle will celebrate this centennial with festivities and cultural events for the enjoyment of Marrakech residents and national and international visitors alike.

The Jardin Majorelle wishes you a 2024 filled with joy, success and discovery!
